

Kelvin Kiprono

Full-Stack Developer | DevOps & IT Support Enthusiast

Nairobi, Kenya · kelvinkipron0659@gmail.com · github.com/skywalker2004 · Available remote & on-site worldwide

PROFILE

Passionate full-stack developer with a strong eye for detail and a love for clean, maintainable code. I bridge the gap between elegant frontends and robust backends — from responsive React UIs to scalable Node.js APIs and DevOps pipelines. Based in Nairobi, I work globally and thrive on building digital products that actually matter.

CORE SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Laravel, REST APIs

Databases: MongoDB, MySQL

Tools & DevOps: Git, GitHub, Postman, VS Code, Docker (basic), Linux CLI

EXPERIENCE

Freelance Full-Stack Developer

2024 — Present · Nairobi, Kenya (Remote)

- Designed and shipped scalable web solutions for clients across Kenya and internationally.
- Built React + Node.js platforms spanning healthcare, hospitality, events and creative industries.
- Owned the full delivery cycle: discovery, UX, implementation, deployment and support.

IT Support Technician

2023 · Nairobi, Kenya

- Hands-on networking, hardware troubleshooting and systems administration.
- Supported end-users and maintained reliable infrastructure for a busy office environment.

SELECTED PROJECTS

Wazicare — Telemedicine & health records platform (React, Node.js, MongoDB, JWT).

Sparkle Clean — Booking platform with Stripe payments and admin dashboard (React, Node.js, MongoDB).

Bonke Studios — Studio booking & portfolio site with audio previews (React, Node.js, Cloudinary).

Event Booking System — Real-time seat selection & QR-code ticketing (React, Node.js, Express).

Hotel Booking System — Reservation platform with Laravel admin panel (Laravel, MySQL, Bootstrap).
