

KELVIN KIPRONO

Full-Stack Developer | DevOps & IT Support Enthusiast

Nairobi, Kenya • +254 732 049 230 • kelvinkiprono659@gmail.com

GitHub: github.com/skywalker2004 • Available for Remote & On-site Roles Worldwide

PROFILE

Passionate and detail-oriented Full-Stack Developer with a strong foundation in building scalable, user-focused applications. Skilled in developing modern web and mobile solutions using React, Node.js, and Laravel, with hands-on experience in DevOps practices and system optimization. Adept at bridging the gap between intuitive frontend design and robust backend systems. Committed to continuous learning and delivering clean, maintainable, and highperformance code.

CORE SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Laravel, RESTful APIs

Databases: MongoDB, MySQL

DevOps & Tools: Git, GitHub, Postman, VS Code, Docker (Basic), Linux CLI

Mobile Development: Kotlin, Jetpack Compose

Networking & IT: Computer Networks, IT Support, System Security (ICDL Certified)

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

2024 – Present | Nairobi, Kenya (Remote)

- Designed and deployed scalable web applications for clients across multiple industries including healthcare, hospitality, and events
- Built full-stack systems using React, Node.js, and MongoDB, ensuring performance and responsiveness
- Managed full development lifecycle: requirements analysis, UI/UX design, development, deployment, and maintenance
- Collaborated with clients to deliver user-centric and business-driven solutions

PROJECT EXPERIENCE

Student Feedback System (Android Application)

Institute of Software Technologies | Jan 2025 – Oct 2025

- Developed a secure Android application using Kotlin and Jetpack Compose
- Implemented role-based authentication and admin dashboard for managing feedback
- Ensured secure data handling and optimized application performance

Hotel Booking System (Full-Stack Web Platform)

Institute of Software Technologies | Jun 2025 – Sep 2025

- Built a hotel reservation system using Laravel MVC and MySQL
- Implemented real-time room availability, booking management, and payment tracking
- Developed RESTful APIs for seamless frontend-backend integration

Event Booking System (Single Page Application)

Institute of Software Technologies | Mar 2025 – May 2025

- Developed a responsive event booking platform using React, Node.js, and MongoDB
- Integrated Axios for API communication and implemented advanced filtering features
- Enhanced user experience with intuitive UI and efficient booking workflows

EDUCATION

Diploma in Software Development (AI-Integrated)

Institute of Software Technologies (IST), Nairobi

Jan 2024 – Oct 2025

Certificate in Software Development

Institute of Software Technologies (IST), Nairobi Sep

2023 – Feb 2024

International Certification of Digital Literacy (ICDL)

Authorized ICDL Centre, Kenya

Jun 2023 – Aug 2023

Kenya Certificate of Secondary Education (KCSE)

Kericho Tea Boys High School

2019 – 2022

PROJECTS & CONTINUOUS LEARNING

- Actively building and deploying full-stack applications using React, Laravel, and Node.js
 - Contributing to GitHub repositories for version control and collaboration
 - Continuously improving DevOps, cloud deployment, and system design skills
-

LANGUAGES

English (Fluent)

Kiswahili (Fluent)

PERSONAL ATTRIBUTES

Problem Solving • Team Collaboration • Clean Code Practices • Continuous Learning • UserCentric Design
